

Study Plans

(internal and external forms, PhD. in Business Management)

Study program:	Business Management
Specification:	
Grade:	third
Form:	daily (internal)
Method:	presence, distance, combined
Length of study in years:	3

Title of the course	Trimester			Credits
	1.	2.	3.	
KM 700 Chapters on macroeconomics & microeconomics (prof. Dr. Ing. Menbere Tiruneh Workie, PhD.)	40 hrs			16
PM 702 Quantitative methods in business management research (prof. Ing. Milan Terek, PhD., doc. Ing. Iveta Paulová, PhD.)	20 hrs			10
KM 705 Selected chapters on management (prof. Ing. Soňa Ferencíková, PhD.)		20 hrs		10
PM 704 Selected chapters on business management (prof. Ing. Edita Hekelová, PhD., doc. Ing. Iveta Paulová, PhD.)		20 hrs		10
Required elective course I.			20 hrs	7
Required elective course II.			20 hrs	7
Total for the first year	60 hrs	40 hrs	40 hrs	60 credits
Creative work in the field of science		4	5	30
Project of the dissertation thesis			6	30
Total for the second year				60 credits

Study Plans

(internal and external forms, PhD. in Business Management)

Creative work in the field of science			7	15
Dissertation thesis		8	9	45
Total for the third year				60 credits

Study part – first year, total of **60 credits**

Research part – second year, third year, total of **120 credits**

Study Plans

(internal and external forms, PhD. in Business Management)

Study program:	Business Management
Specification:	
Grade:	third
Form:	external
Method:	presence, distance, combined
Length of study in years:	4

Title of the course	Trimester				Credits
	1	2	3		
KM 700 Chapters on macroeconomics & microeconomics (prof. Dr. Ing. Menbere Tiruneh Workie, PhD.)	40 h				16
PM 702 Quantitative methods in business management research (prof. Ing. Milan Terek, PhD., doc. Ing. Iveta Paulová, PhD.)		20 h			10
KM 705 Selected chapters on management (prof. Ing. Soňa Ferencíková, PhD.)		20 h			10

	1	2	3		
Total for the first year	40 hrs	40 hrs	20 hrs		46 credits
Required elective course I.				20 h	7
Required elective course II.				20 h	7
				4	

Study Plans

(internal and external forms, PhD. in Business Management)

				40 hrs	
Creative work in the field of science			5	6	30
Total for the second year					44 credits
Project of the dissertation thesis				7	30
Creative work in the field of science			8	9	15
Total for the third year					45 credits
Dissertation thesis					45
Total for the fourth year					45 credits
Total for the study					180 credits

Study part – first year + 4th trimester - second year, total of **60 credits**

Research part – 5th and 6th trimester, second year, third year, fourth year, total of **120 credits**

Required elective courses common for the daily and external forms of study.

A student is obliged to choose two of the offered elective courses and complete them as required. The following elective courses are offered in the given study program:

KM 708 Electronic economic activities

PM 705 Financial management I.

Study Plans

(internal and external forms, PhD. in Business Management)

PM 708 Financial management II.
PM 709 Methods of optimization of business management
KM 712 Management of the innovation process
PM 706 Marketing management I.
KM 704 Computerized processing of knowledge
PM 707 Strategic management of human resources I.

Credit distribution for creative work in the field of science for the daily and external forms of study

<i>Publication output</i>	Credits
Publication in a scholarly journal – indexed	20
Publication in a scholarly journal – not indexed	10
Publication in a professional journal – reviewed	10
Publication in a professional journal – not reviewed	5
Presentation in a scientific conference abroad, with publication in a reviewed collection of proceedings	15
Presentation in a local conference, with publication in a reviewed collection of proceedings	10
Presentation in a scientific conference of young research workers and doctoral students, e.g. in EDAMBA, with publication in a collection of proceedings (reviewed)	15
Presentation in a professional conference abroad, with publication in a collection of proceedings (not reviewed)	10
Author or co-author of textbook or monograph publications of the size less than 1 AS (author sheet)	8
Author or co-author of textbook or monograph publications of the size more than 1 AS (author sheet)	15
<i>Presentations (in person) in conferences and professional events</i>	
Presentation in a scientific or professional event abroad (proven by a certificate of participation)	5
Presentation in a scientific or professional event in the Slovak Republic (proven by a certificate of participation)	3

Study Plans

(internal and external forms, PhD. in Business Management)

<i>Active participation in research projects</i>	
Member of a research team within VEGA, KEGA and international research projects	8
Member of a research team within a grant for young research workers and an internal grant of VŠM	6
<i>Citations and references</i>	
Citation – SCI	5
Citation abroad	3
Citation in the Slovak Republic	1
<i>Other activities connected with scientific work</i>	
Member of a scientific or organization committee	5
Editing of proceedings of a scientific conference	5
Translation of scientific output	3
Partial project of a doctoral thesis and its discussion in a workshop	30
Dissertation thesis	45

Total for the study and research part: 60 + 120 = 180 credits

Fulfillment of the core of the study field

As the table shows, the study plan fulfills the requirements of the core of the study field 3.3.16 Economics and Business Management in the 3rd grade, study program *Business Management*.

Study part	Fulfilled in the course(s)
Selected chapters on microeconomics	<i>Chapters on macroeconomics & microeconomics</i>
Selected chapters on management	<i>Selected chapters on management Methods of optimization of business management</i>
Selected chapters on business economics	<i>Selected chapters on business management Financial management I, II</i>
Selected chapters on statistics	<i>Quantitative methods in business management research</i>

Study Plans

(internal and external forms, PhD. in Business Management)

Research part:

- Research of a current scientific issue in the field (completing of a doctoral dissertation thesis)

Knowledge of the core of the study is divided as follows: 1/3 in the study part and 2/3 in the research part. The dissertation exam and the defense of the dissertation thesis should fulfill the criteria that demonstrate the student's ability to acquire both theoretical and practical knowledge independently.

Research part	Fulfillment
General methodology of scientific research	<i>Quantitative methods in business management research</i> <i>Selected chapters on management</i> Cooperation in research projects of VŠM
Specific methods and research techniques suitable for the scientific field	<i>Quantitative methods in business management research</i> <i>Selected chapters on management</i> Cooperation in research projects of VŠM Active participation in scientific conferences
Formulation of research objectives	<i>Selected chapters on management</i> <i>Selected chapters on business management</i> Cooperation in research projects of VŠM, preparation of presentations for scientific conferences, writing of papers
Conducting of research of a current and significant scientific issue	<i>Selected chapters on management</i> <i>Selected chapters on business management</i> Cooperation in research projects of VŠM Preparation of presentations for scientific conferences Writing of papers and contributions
Processing and interpretation of research outcomes	<i>Quantitative methods in business management research</i> <i>Selected chapters on management</i> <i>Selected chapters on business management</i> Cooperation in research projects of VŠM Preparation of presentations for scientific conferences Writing of papers and contributions
